

Continued from page 1

districts of the state according to population at the next session of the legislature following each federal census, and

Whereas, The re-apportionment has been delayed upon technicalities and largely because of sectional political interests, and

Whereas, An attempt is now being made to place upon the ballot for the November election an initiative proposition known as the Windrem plan of reapportionment which will limit representation in the state senate to one senator from each county, and

Whereas, This plan would deny just representation to Southern California, which by reason of larger counties, would be limited in representation, and although containing one-third of the area and almost one-half of the population and paying one-half of the taxes of the state, would, under the proposed plan be limited to one-fifth of the state senators, and

Whereas, The Windrem plan, while ostensibly to provide adequate representation for the agricultural section of the state, which was last year the richest agricultural county in the world, and

Whereas, This plan is no more than the attempt of sectional politicians to hold to their waning power in the legislature by penalizing Southern California progress, now therefore be it

Resolved, That the Redondo Beach Chamber of Commerce express its dissatisfaction with the delay in following the mandates of the state constitution in reapportioning the legislative districts of the state according to population, and that the Chamber does call upon His Excellency, Governor William D. Stephens, to immediately call a special session of the legislature to consider and undertake re-apportionment in accordance with the constitution of the state, and be it further

Resolved, That the Redondo Beach Chamber of Commerce hereby declares its unalterable opposition to the Windrem plan of re-apportionment, denounces the motives of its proponents, and calls upon every organization and citizen of Southern California to defeat the measure, and be it further

Resolved, That the Chamber hereby declares the association of its purpose and interest to the intent of the above resolutions with any and all other organizations of like mind, and be it further

Resolved, That the Redondo Beach Chamber of Commerce calls upon the citizens and civic organizations of the City and County of San Francisco, Berkeley and Oakland and of the counties of Sacramento and Alameda to join the determined fight to defeat the Windrem plan since it denies just representation to their respective cities and counties, and be it further

Resolved, That copies of this resolutions be sent to the press, to the Governor and to other interested parties.

Big Sewage District
A spirited discussion followed a re-

committee of five, one of whom reported to the committee by Secretary Pomeroy relative to the sewage disposal question as affecting Los Angeles and the greater part of the country south of Los Angeles to the sea and the seaboard cities and health and pleasure resorts. Mr. Pomeroy strongly urged a metropolitan sewage district to comprise all the territory mentioned with possible outfalls at Point Firmin and at or near Newport. C. J. Colden objected to an outfall anywhere near San Pedro and Hon. Frank Merriam, of Long Beach said "this is so sudden," and he and Mr. Baldwin also wished the privilege of carrying the proposition home for consideration and instruction. Mr. Mellinger, of Hermosa Beach, urged Mr. Pomeroy to withdraw his request, if not a seconded motion, "like a good boy," and give every one a chance to consult folks at home. This action was taken so far as seemed necessary, but Mr. Pomeroy maintained he was merely giving a report of committee and recommendations and that a state of finality had not been reached. The whole matter will come up at the next meeting, which will be held at Venice and will probably be considered at the Regional conference at Long Beach April 1st.

Engineer Storey Speaks
Engineer Storey, of the great Palos Verdes proposition spoke interestingly of the great possibilities of the wonder city which Mr. Lewis will build for the famous residential paradise, with an expenditure of \$35,000,000, with 125 miles of paved ways and with every modern convenience. The speaker said Palos Verdes will help, with financial means and an expert engineer and planning advice for any or all of these allied organizations but would refuse to lead, as a dictator, but would consult, and aid the people in every possible way as a friend and neighbor.

The speaker said: "In twenty years Los Angeles will have one and one-half millions, maybe two millions of people. There will be no ranches nor farms here then; the whole country will be residence property and the only way you can solve the sewage question is by a metropolitan district for the whole county."

Proctor Speaks
President Proctor said that Los Angeles had invested \$23,000,000 at one time alone to get water from Owens Lake and the remedy was to pump the sewage as purified, back to the desert for irrigation. The Pacific ocean should not be polluted.

"Engineer Storey said the sewage will not be wanted on the ranches in twenty years, for there will be no ranches and besides, the sewage would contaminate the water supply from the wells and make the country uninhabitable. Therefore, pump the sewage back to the desert."

A satisfactory report was given of highway conditions at Maywood and the contention seems settled amicably and both the U. P. R. R. and the heretofore opposition are satisfied.

A motion by Mr. Colden that a should be the President, should be appointed to work for the completion

Report on Torrance

President Proctor spoke of the great successful reorganization of the Chamber of Commerce at Torrance where \$7,000 has just been subscribed for the purpose of placing Torrance in the front of the procession.

More Speeches
A jolly and informative address was made by Mr. Colden "of Missouri" and San Pedro and the house responded heartily to his drolleries, sparkling witticisms and humorous situations. A speech by Mr. Pottner was also an event of the evening, which was heartily appreciated.

An innovation by Mr. Mellinger, of Hermosa Beach, was the Round Table conference, which he handled with skill and diplomacy and round after round of applause greeted the spontaneous sallies that were hurled across the room when a humorous situation could be evolved by turning a double meaning into some interpretations given.

Highland Avenue
Another recommendation offered at the hands of Mr. Pomeroy was a request that Highland avenue be continued and finished to make a thoroughfare, or boulevard, from Cahunga Pass down through Inglewood to Redondo Beach.

Litton Speaks
Dr. Litton, President of the Gardena Chamber of Commerce, came in late on account of being detained professionally and was pleased to note

GRANDMA USED SAGE TEA TO DARKEN HAIR
She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.
Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

STOP CATARRH OPEN NOSTRILS AND HEAD
Says Cream Applied in Nostriks Relieves Head-Colds and Cures.
If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just use a small bottle of My's Cream Saline at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, raw membrane and relieving the headache.

that the meeting was a success; dinner music speeches, and he hoped the Fourth District might meet again soon in Gardena.

Venice Next
Mr. Barthell, of Venice, across and invited the next meeting to be held in Venice and he promised ample entertainment.
The invitation was accepted with hearty cheers and the beautiful city by the sea will entertain the next meeting of the Fourth District Chamber of Commerce.

Adjourned Session Board of Trustees

The Board of Trustees met in adjourned session Wednesday evening. Written Communications
A letter from the Acting Postmaster General was submitted by Postmaster Gourdiere, commending compliance of postal employees with local authorities.

On motion, carried, the matter of improvement resolutions, was taken up out of the regular order of business, to permit the president, who was indisposed, to leave the meeting early.

Special Election Called
Resolution No. 35 calling an election on the 10th day of April to decide on the question of street improvement and a sewer farm and Resolution No. 36, consolidating this special election with the general election was carried.

Upon motion Mr. Fitzhugh was named chairman pro tem, upon Mayor Proctor's departure.

New Registrars
The county registrar wrote that Mrs. Brown and Mrs. Beckwith had been appointed deputy registrars. The City Clerk was instructed to appear before the county registrar to secure license as registrar.

The Henderson Motorcycle Sales Co. made an offer of \$360.25 for a new motorcycle, after allowance for the old machine had been made. Bid was accepted, \$4.75 for chain and \$5.00 for spotlight to be deducted therefrom.

Oral Communication
Mrs. Chas. Stock and other property owners on Carson street present, stated that a twenty-foot paving would not be satisfactory and sidewalk and curbs should be put in at the same time, to avoid a subsequent assessment district. At present the rough roadway prevented speeding, but with only a 26-foot paved center would bring speeding and would be dangerous for children. Sidewalks were also needed for the children.

City Engineer Postle suggested that the strip between the paving and curb be graded and oiled and sidewalk and curb be postponed. The oiled space to be 20 feet wide.

The cost of grading for the 20-foot side strip would be 75 cents to \$1.00 per running foot of property, \$1.00 for oiling, and if sidewalk were desired 75c for same and 50c per running foot for curb.

Mr. Stock favored paving the full width of Carson.

The city would pay half of paving and half of oiling on above proposition.

After a conference with the protestants the course decided upon was the paving of a 20-foot center with ten feet of rock on each side, giving a forty foot roadway and the ten feet additional on each side to be graded and oiled.

The matter was referred by motion to the City Engineer and City Attorney to report at an adjourned meeting Saturday night of this week.

Mr. J. Manter Wright asked the Board as to a \$6,000 valuation placed by the Torrance Light, Water & Power Co. for houses, etc., used in construction, was not the whole value of same, and were also used for the whole city grading work and should not be wholly charged to the water company.

Mr. Fitzhugh and Mr. Briney said these and other items had been questioned by Mr. Hunter and Mr. Gillett, the commission's engineers, and also by our City Attorney.

Mr. Wright also called attention to the inadequate size of water mains, a 4-inch pipe not being large enough to deliver a sufficient supply of water.

Reports of Committees
Mr. Stone reported action on the purchase of a new motorcycle.
Mr. Fitzhugh reported regular work on streets.

Mr. Gilbert commended highly the improved condition of some of the streets as a result of the street committee's work.

Complaint was made as to garbage and rubbish gathering.

It will probably be necessary to find a better method of securing adequate service in garbage and rubbish removal, it was suggested.

Mr. Postle stated that he had visited the gas office and had been informed that we secured our gas in an 8-inch pipe from the main 12-inch line running through Gardena to Redondo. The tapping of our main by Lomita would affect the pressure here in no way.

The company favored the proposed passing of an ordinance regulating the gas pressure and said most of the cities were adopting the Los Angeles ordinance.

Unfinished Business
Mr. Briney stated that in the matter of a phone for the city that he had taken it up with Mr. Christopher, who had referred it to the head office.

Bills Paid
Bills submitted, properly audited, were ordered paid.

New Business
Ordinance No. 20 regulating the parking of vehicles, had its first reading.

Meeting adjourned to Saturday night.

P. T. A. Meeting

Torrance Parent-Teachers Association met Tuesday afternoon in the kindergarten room. About fifty mothers were present and all of the teachers. After a couple of selections were given by the school orchestra the business session was held. It was decided to purchase a fern to be awarded to the grade having the most mothers present at the P. T. A. meeting. This fern to be the property of the room for one month, or until the next meeting. Grade mothers were also appointed for the various grades to bring in closer touch the parents and the teachers. A committee was appointed to look more closely into the Child Welfare Day on the 17th of February, and find out just what work was being done.

At the close of the business session a delightful program was given as follows: Piano solos by Mrs. Laven; vocal solo, Mrs. Ainsworth, Miss Virginia Watson accompanist; paper, "The American Indian," Mrs. Tompkins, and two vocal vocal solos by Mrs. Kite accompanied by Miss Fitzhugh. A social time followed, in which the teachers and mothers became better acquainted. Wafers and punch were served.

M. E. Ladies' Aid Give Notable Dinner

The dinner given by the Ladies Aid Society of the Methodist church Wednesday evening was very well patronized, every plate which they planned for being taken. It was a delightful surprise to most of the people to find the Aid was serving a baked ham dinner, with all the good things that go with it. One man, who ought to know, said it was a good thing it was not generally known what was to be served or the crowd could not have been handled. But never mind; perhaps they will serve the same things again and will let everyone know what good things to expect, so you won't miss it the next time.

Dr. Edwin J. Inwood was the able speaker and his words gave new courage to those who heard him to "carry on" the big moral task that is before the world today.

Quarterly conference of the M. E. church was held Wednesday evening.

NOTICE

G. A. R. Steiner has sold his interest in the Day and Night garage, two-thirds to F. M. Tourtelotte and Isabelle Tourtelotte, and one-third to L. M. Cowell. All bills due the garage are payable to them and all accounts charged against G. A. R. Steiner pertaining to the garage business are to be paid by them.
